

TEENSHOP WORKSHOPS

Summer 2012

Video Game Design

Video games will never be the same after this workshop! Become a pro as you build your very own video games. Using professional software learn fundamental game design techniques and progress to adding features such as movement, collision detection, basic artificial intelligence, scoring and many more!

Earth Shattering Science

Avalanches! Volcanoes! and Earthquakes! Shake up your world as you discover the dynamic forces that shape our planet and change it everyday. Learn the science behind the powerful forces of Mother Nature. Perform experiments that mimic these natural disasters. Hold on to your seat throughout this rocking and rolling ride.

Robotics, Gizmo & Gadgets

Ever dreamed of building your own personal robot? Here's your chance! In our robotics workshop you'll find out exactly what makes a robot tick and learn how to build one, too.

If you'd like to become a mechanical whiz, you'll love our Gizmos & Gadgets program. You'll learn all about the engineering of complex structures such as bridges and elevators. You'll use levers, inclined planes, screws, pulleys, wheels and wedges to build your own machines. And imagine - you will even build your own "edible" house!

Center Stage

Do you want to learn how to take your love for acting to the next level? "Center Stage" is a fun workshop for our Teenshop Students that enhances confidence and stage presence. Each student will perform a monologue in a special actor's showcase for friends and family at the end of the workshop. When the director calls "places", make sure you are "Center Stage!"

Band Jam

Bring your instruments and join with creative music. Join other campers to fill our campus with melodious tones and rockin' sound!!

Genetic Detectives

Love a great mystery? Join the DNA Detectives investigation team! With the help of the Long Island Science Museum, the Detectives use fingerprinting, DNA extraction techniques, dissection skills, and archaeology to answer questions of the past and the present.

Tie Dye It

Colors will explode into wild and wonderful patterns as we design one of a kind 60's inspired clothing. Don't miss this "groovy" workshop!

Digital Photography & Movies

It's digital photography the creative, fun way. Take a trip around camp with your camera and learn how to take photos based on your chosen theme. Import these photos using Apple's iPhoto and then enhance them using special effects and touch-up techniques. From there, import the photos to Apple's iMovie HD, then add transitions, special effects, and music to create your very own movie. All the campers' movies will be combined into a single DVD using Apple's iDVD, and each camper will get to take home a copy.

Designs in Chocolate / Icing on the Cake

Indulge your sweet tooth while stimulating your creative juices! Create delectable chocolate treats and decorate freshly baked cakes and cupcakes in this "yummy-licious" workshop.

LHS Glee Club

If you always dreamed of being in a show choir and singing and dancing to your favorite tunes, this is for you! You've seen the show... now the LHS Glee Club is the place to strut your stuff!

Zumba

A fusion of hypnotic Latin rhythms and easy-to-follow moves create a one-of-a-kind fitness program that will blow you away. Exciting body-energizing movements are sure to be an absolute blast.

Bath and Body Works

Make your own luxurious bath and body products and design your signature packaging! You'll create luscious sugar body scrub, body wash, lip balm and moisturizer. Perfect for gift-giving or to treat yourself to a spa experience!

Jewelry Crafts

Feeling fashionable? Who knew an old pair of pants could turn into a cute necklace or even a headband. Make necklaces, bracelets, and headbands. Use fabric, buttons, beads and cut paper to make instant accessories. You dream it, you create it!

Sculpting

Embark on a sculptural adventure! Build forms in clay using both potting and sculpting techniques. Work with coils and slabs to create your own masterpiece!
